Duni Group stops deliveries to Russia

We are deeply concerned about the recent development in Europe. We stand by the Ukrainian people in these difficult times and support the UNHCR that provides emergency humanitarian aid in Ukraine and the neighboring countries. We will also send products from our Polish production unit to the borders of Poland where refugees now are gathering.

Due to the difficult situation Duni Group has stopped all deliveries to our sales subsidiary in Russia. We continue to monitor the development closely and follow all sanctions imposed. Today, less than 1 % of our turn-over comes from sales in Russia with 17 employees in Moscow while no employees or business in Ukraine. Our highest priority is always the safety and well-being of our people, and our hearts go out to all suffering from these tragic events, directly or indirectly.
